### Teaching Activities

Please give a brief description of classes taught/observed. Include grade level, subject, topic, etc.

I observed Mrs. Brown teach a few lessons this week such as health and music. I taught most of this week.

I continued teaching social studies, math, phonics, and religion. I added science and art to my teaching load this week. I also taught a few days of PE. (If the weather is nice, we just let them play outside.) I just started a new unit in science and math. We are learning about space and technology in science and 3D shapes in math.

Extracurricular Activities: Indicate whether your role was as a participant, observer or leader. Include only those activities directly related to your assignment at the school and/or congregation.

I got permission slips out to the parents, and they turned them back in. All I did this week was keep track of who turned in their permission slip and filed it for our field trip.

Please continue on the next page.

Briefly share one positive experience from this week

This week I started teaching pretty much full days, and I really enjoyed it. The day goes by so quickly! I love the enthusiasm of my students.

Briefly share one problem or negative experience. Do you want assistance in dealing with this?

My coop is making comments on how she didn't want a student teacher. It first came up when she was telling me about Morningside's service team that volunteers at different schools. Mrs. Brown told me it would be wonderful for them to come and work on the playground, but she did not want them in her classroom. She just does not like people coming in and taking over--no offense to me. I just nodded, but she keeps making comments. I found out she didn't want a student teacher and tried to get the first and second grade teacher to take me. She also says how the days are so long now. It is just hard not knowing how to respond.

Do you have any other comments, questions or needs?

Looking forward to seeing on you Tuesday!

Supervisor Feedback *(For use by supervisor, as needed)*
