

Graduate Student Testimony

I have to say that this experience has been one of the most self-affirming experiences of my life. In fact, as much as I want to complete my program to focus on other things, I feel a bit sad, I'm going to miss learning with my cohort group and pushing the edges of what I thought I was capable of accomplishing.

Besides my Capstone, I am attaching a video and written copy of a speech I gave the day before our graduation exercises. The audience was the Class of 1962, and the undergraduate and graduate classes of 2012. It was a gift to be able to share my experience with the people in that room, and I'll was grateful for the opportunity to share the journey with others.
