7.NAEYC STANDARD 7 Field experiences and clinical practice are planned and sequenced so that candidates develop the knowledge, skills and professional dispositions necessary to promote the development and learning of young children across the entire developmental period of early childhood – in at least two of the three early childhood age groups (birth – age 3, 3 through 5, 5 through 8 years) and in the variety of settings that									

offer early education (early school grades, child care centers and homes, Head Start programs). ++Please note that you are required to experience each of the three age groups. CGS Assessment Framework jpreuss Fall, 2014 revised Fall, 2105, revised Spring 2017

Data Results

January 31, 2016 (C&W charts by outcomes)

July 31, 2016 (C&W charts by outcomes)

Spring 2016 Plan of Action: Expectations for artifact scores were set at either 2 or 2.5 for each indicator listed on Core Standard 6. 19 artifacts were scored (n) and it was discovered that the mean scores did not always meet the minimum expectation. Since this is the first class in the student's EC program artifacts from later courses were identified which could also be linked to the Core Standard 6 program outcome in order to measure student growth. This led to examining all program outcomes to ensure that

at least two artifacts from different courses and field experiences across the program were linked to program outcomes. As a result 6 new artifacts were identified and 6 new scoring rubrics were created.

Budget Implications: none

Spring 2017 Plan of Action: Prior to September 2016 anecdotal review of the field experience journals and documentation artifacts suggested that student reflection on Core Standard 5a appeared to be weakly connected to their field experience. As a result it was decided that clearer outcomes of the field experience needed to be expressed prior to student's beginning their experience. The field experience involvement proposal was updated to include tenets of CS 5a and implemented with new students beginning in October 2016. Future assessment should include examine any increases in CS5a proficiency.

Budget Implications: none

Summer 2017 Plan of Action: The previous plan of action suggested an examination of CS5a. It appears that scores have not significantly changed. This may be in part due to the transition to the new field experience proposal, and data in the sample may not be reflecting those using the new proposal. The use of student journals for assessment may not reflect the same level of learning as other assignments within the courses. Artifacts that may better exemplify student learning should be investigated.

Core standard scores satisfactorily are within or met target expectations.

Budget Implications: none

Fall 2017 Plan of Action: 1) Narrative scores do not show improvement for CS5, however, the video and journal artifacts demonstrate a level of understanding beyond the target expectation. The narrative for CS5 is a requirement in Educ 580. CS5 may be better suited in another course. 2) The scores for CS6 do not seem to be making significant improvements and remain very close to the expected score. This may be due in part to the standard being in the student's first course. Explore rationale for moving CS6 into a different course. 3) Examine internship documents provided to students in an effort to increase journal scores.

Budget Implications: none

SPRING 2018 Plan of Action (5/5/17-8/25/17): All target scores were met or exceeded. There is not plan for action at this time.

Fall 2018 Plan of Action 8/17/17-12/31/17:

1. Journal and Documentation results show improvement since the implementation of the action plan in Fall 2017
2. The scores for standard 5b may show improvement as the New Student Orientation and Research and Writing Quizzes are implemented in Fall 2018.
3. Standard 6a will be a target outcome as Service Learning and Mission trips are implemented in Summer and Fall 2019.

4. While the target score for standard 3c is met an emphasis on addressing, *Understanding and practicing responsible assessment to promote positive outcomes for each child, including the use of assistive technology for children with disabilities* will be added to Educ 578, Educ 580, Educ 583 courses to prepare for where the standard is scored in the practicum assignment (Educ 573B).

Fall 2018 Plan of Action 1/1/2018-5/12/2018

1. The previous action plan's focus on strategies to increase scores on 5B seem to be effective.
2. Focus on 6a and 3c is in process.
3. Even with on-going program improvement plans, all target scores were met or exceeded. There is no additional plan for action at this time.

Spring 2019 Plan of Action 5/6/18-8/25/-18

1. All targets were met.
2. Courses are in the process of being updated over the next two years. Data will be monitored to be sure that target outcomes continue to be met.
3. Core Standard 4 for Educ 583 needs to be linked to Chalk and Wire to be assessed.
4. Student data from early childhood student completing Educ 565 needs to be linked to Chalk and Wire for assessment. All data is currently escalating to the Literacy PD.
5. I will be meeting with Dr. Lorinda Sankey, Head of Teacher Education to determine the best plan of action for collecting data for students enrolled in the Masters B-3rd Inclusive/Initial Licensure program.

Summer 2019 Plan of Action 8/26/18-12/31/2018

1. All targets were met or exceeded.
2. The program outcomes will continue to be monitored as the program moves to the Carousel Model.
