Part 6 (p. 47): Initial Program Completer Employment Status (Title II) and 2018-19 Graduates Hired in Education Positions Aligned with Their Preparation (CAEP)

Part 7 (p. 49): Student Loan Default Rates (CAEP)

Part 1 Education Program Completers 2018-2019 (Title II & CAEP) and Graduation Rates 2018-2019 (CAEP)

Education Program Completers 2018-2019 (Title II & CAEP) Graduation Rates 2018-2019 (CAEP)

Number of completers for programs leading to <u>initial</u> teacher certification or licensure: **98**

Initial Program Graduation Rate: 89.1%

(12 admitted candidates did not complete)

Number of completers for <u>advanced</u> programs: **181**

Additional Advanced Program data will be available in 2022.

Part 2 Praxis Content Test Pass Rates (Title II) and Ability of Completers to Meet Certification Requirements (CAEP)

Praxis Content Test Pass Rates (Title II)

Praxis Content Test is required for the Teaching Certificate in Nebraska.

2018-2019 Initial Program Completers Praxis Content Test Pass Rate:

Number Taking Tests	Number Passing Tests	Pass Rate
98	96	97.95%

Advanced program data will available in 2022.

Part 3 Program Completers' Impact on P-12 Learning and Development (CAEP 4.1)

Impact on P-12 Learning and Development (CAEP 4.1)

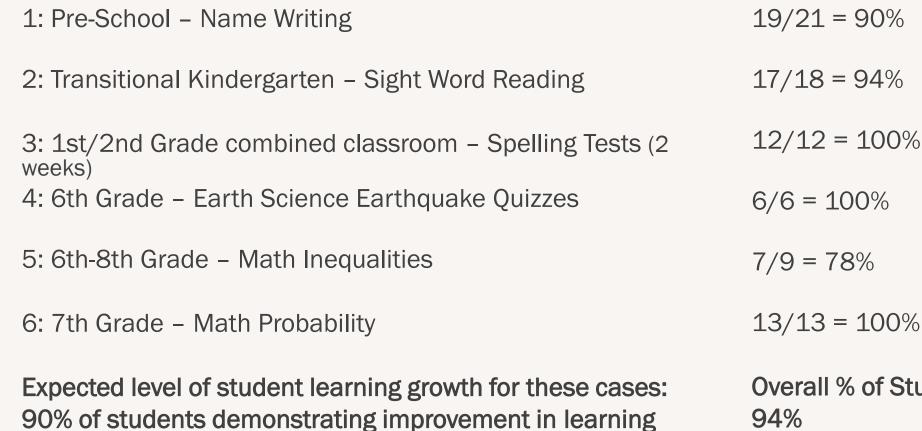

Overview

In Spring 2019, student assessment data from six program completers were collected from a convenience sample of recent program completers. Each of these completers provided us with a direct measure of student outcomes. All six of them collected and submitted their individually chosen pre/post student assessment data during the month of February 2019, with the exception of Case 1, in which the pre-assessment took place in August.

The program completers were initially contacted via email, following consent from their building administrator, and asked to participate in this process. Each of the six agreed to collect and record current student pre/post assessment data, and sent it to Concordia University via email. Each completer chose their own method of reporting the raw data collected, some sending it in a table and others sending the actual student assessments. The Education Department at Concordia University has recorded each set of the data in a similar table format for comparability purposes.

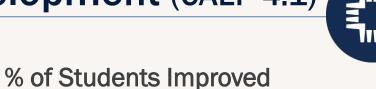

Data: Impact on P-12 Learning and Development (CAEP 4.1)

Case

outcomes

12/12 = 100%

Overall % of Students Improved 94%

Data Analysis: Impact on P-12 Learning and Development (CAEP 4.1)

The P-12 student assessment data reported here indicates that overall 94% of students improved their learning outcomes when measured by a pre and post-test, and provides a direct measure of P-12 student learning. This evidence demonstrates that overall the program completers contribute to the EPP's expected level of student learning growth. It is noted that student assessment data from five of the six program completers showed 90% or more of students demonstrating learning growth. One of the program completer's data showed less than 90% of students improved learning.

This information represents one cycle of data utilized to meet current requirements under CAEP Standard 4.1. Due to low number of participants, these data are not used for identifying trends or making decisions regarding program improvement. Moving into the future, the EPP will utilize a different, more permanent plan for demonstration of completer impact on P-12 student learning growth and development.

Data collection for CAEP 4.2 Indicators of Teaching Effectiveness was piloted in Spring 2018 and Fall 2019. A convenience sample of Elementary Education and Secondary Education program completers in their first, second or third year of teaching was used for data collection.

Three points of data were collected:

1. Principals evaluated program completers' teaching performance using the Nebraska Department of Education Clinical Practice Evaluation (2017).

4 = Advanced; 3 = Proficient; 2 = Developing; 1 = Below Standard.

2. Program completers **self-evaluated their teaching performance** using the Nebraska Department of Education Clinical Practice Evaluation (2017).

4 = Advanced; 3 = Proficient; 2 = Developing; 1 = Below Standard.

3. P-12 students of program completers **evaluated teaching performance** of their teacher (program completer) using the *Panorama Student Survey*.

These data provide measures of indicators of teaching effectiveness using valid instruments. Benchmark scores on the evaluations, set by the EPP: Scores of 3 = Proficient.

- Benchmarks for the Nebraska Department of Education Clinical Practice Evaluation (2017 version) from Principals and Teachers as set by the EPP = Scores of 3.0 Proficient.
- Benchmarks for the Panorama Student Survey as set by the EPP = Scores of 3.5.

Data show that 14 of the 15 survey items for *Nebraska Department of Education Clinical Practice Evaluation (2017 version)* are at or above benchmark from both Principals and Teachers.

- Item 6.2 Differentiated Assessment Practices is below the benchmark score of 3.0 from both Principals and Teachers.
- Item 7 Instructional Planning is below benchmark from Teachers only.

Data show that 5 of the 6 survey categories for *Panorama Student* Survey are at or above benchmark from both Elementary and Secondary students.

Classroom Engagement is below benchmark from Secondary students.

The Education Advisory Committee and EPP faculty analyzed these data in 2019-2020. Strengths, areas for improvement and potential program improvements were identified by the EPP.

Program improvement decisions based upon these data will be considered with program improvement decisions finalized in May 2020. Program improvements based on these data will begin in Fall 2020.

Part 5 Satisfaction of Employers, Employment Milestones (CAEP 4.3) and Satisfaction of Completers (CAEP 4.4)

Satisfaction of Employers, Employment Milestones and Satisfaction of Completers (CAEP 4.3 and 4.4)

2019 Nebraska First Year Teacher Survey

Introduction

The Nebraska Department of Education (NDE) administered the Nebraska First Year Teacher Survey from mid-March to late April 2019. Surveys were distributed to the principals of first year teachers, and to the first year teachers themselves, who completed their preparation programs at 15 preparation institutions in the state. Concordia University was a participating preparation institution. Evaluation indicators are based on the InTASC Model Core Teaching Standards, 2011.

Results

The results of the questions concerning the impact on student learning (by principals and teachers), continued employment (by principals), and preparedness (by teachers) are displayed below. Also displayed below are the survey indicators, frequency of responses and means per indicator, for both principals and teachers.

Impact on Student Learning Reported by Principals of 2017-18 Program Completers

	Highly Effective 4	Moderately Effective 3	Somewhat Effective 2	Ineffective 1	Total Responses with Mean
Based upon the performance of this first year teacher, how would you rate his/her impact on student learning?	15 75.0%	3 15.0%	2 10.0%	0 0%	20

Benchmark set by EPP: 85% of principals report first year teachers to be highly effective or moderately effective impact on student learning.

Data findings: 90.0% of principals report that first year teachers have a highly effective or moderately effective impact on student learning.

Impact on Student Learning Reported by First Year Teachers/2017-18 Program Completers

	Highly Effective 4	Moderately Effective	Somewhat Effective	Ineffective	Total Responses
Based upon your performance as a first year teacher, how would you rate your impact on student learning?	8 40%	11 55%	1 5%	0 0%	20

Benchmark set by EPP: 85% of first year teachers report highly effective or moderately effective impact on student learning.

Data findings: 95% of first year teachers report that they have a highly effective or moderately effective impact on student learning.

Continuing Employment Responses by Principals of 2017-18 Program Completers

	Yes	No	Total Responses
Would you consider this teacher effectively prepared for continuing employment in your district?	19 95.0%	1 5.0%	20

Benchmark set by EPP: 85% of principals report that they consider the first year teacher effectively prepared for continuing employment in the district.

Data findings: 95.0% of principals report that they consider the first year teacher effectively prepared for continuing employment in the district.

Preparedness Responses by First Year Teachers/2017-18 Program Completers

	Yes	No	Total Responses
Do you believe you were prepared to be an effective first year teacher?	18 90.0%	2 10.0%	20

Benchmark set by EPP: 85% of first year teachers report that they believe they were prepared to be an effective first year teacher.

Data findings: 90% of first year teachers report that they believe they were prepared to be an effective first year teacher.

Survey of Principals of 2017-18 Program Completers

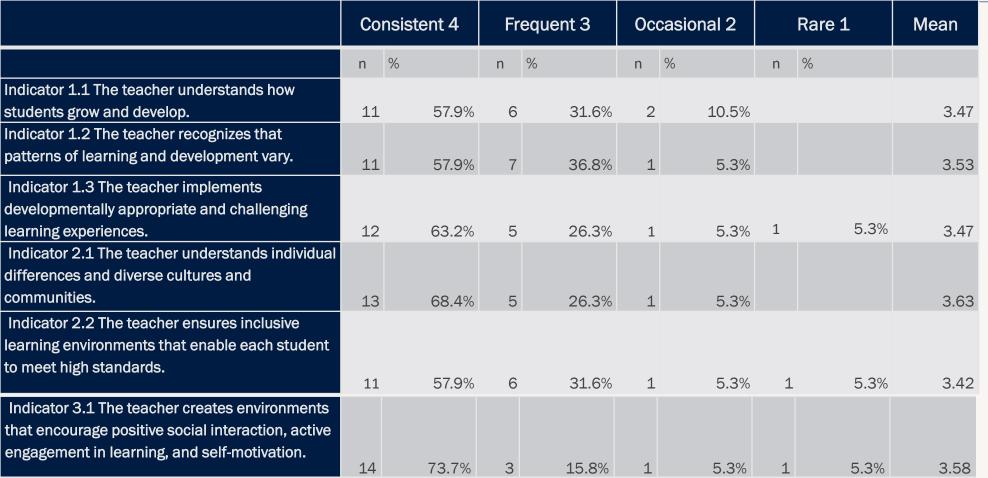

Principals were asked:

Using the following rating scale, please indicate the extent to which you believe this 1st year teacher was prepared in each of the following areas: Consistent Frequent Occasional Rare

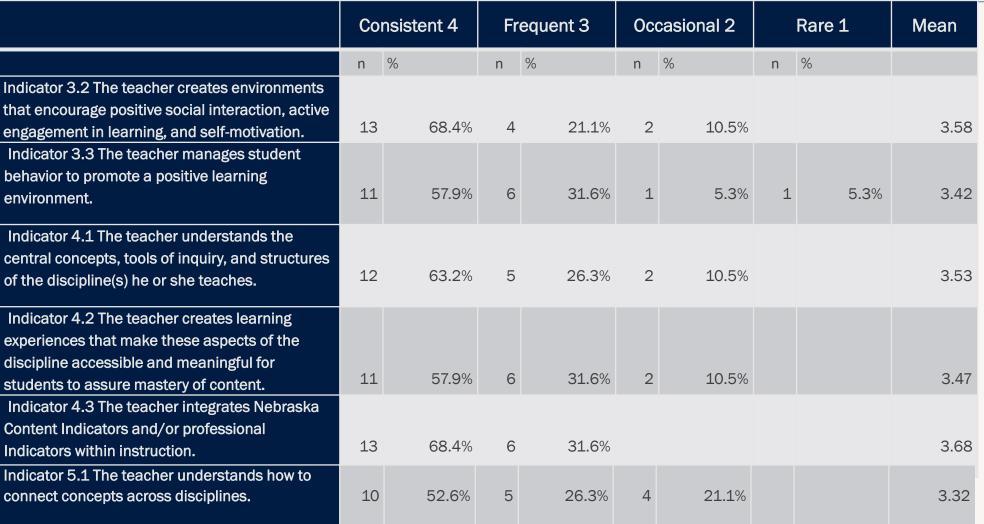

Benchmark

EPP benchmark for each indicator: Mean score of 3.25 (Nebraska means were not available.)

	Consistent 4		Fr	equent 3	Oco	casional 2	Rare 1		Mean

Benchmarks

EPP identified benchmark for each indicator: Mean rating of 3.25

(Nebraska means were not available.)

<u>Trends</u>

The data show that Concordia first year teachers report their preparation:

At or above the benchmark, mean rating of 3.25 for each indicator.

Self-reported scores from teachers were generally higher than scores from principals.

EPP Action based on CAEP 4.3 and 4.4 Data

The EPP faculty and the Education Advisory Committee analyzed and interpreted these data in 2019-2020. Strengths, areas for improvement, and potential program improvements were identified. Program improvement decisions will be made in May 2020, based on these and other assessment data.

Program improvement decisions based upon previous year's data were made for the 2019-2020 year in May 2019 and began in Fall 2019.

Field Experience improvements for 2019-2020:

- Clearly define and communicate Field Experience expectations to candidates, schools, and classroom teachers;
- Share data and processes used in 2018-2019 among all program directors and instructors --Continue to place EDUC 225 students in content/subject area;
- Add Field Experience information and expectations to adjunct professional development.

EPP Action based on CAEP 4.3 and 4.4 Data (p. 2)

Methods courses' improvements for 2019-2020:

- Provide professional development for adjunct methods course instructors to include:
 - Nebraska Clinical Practice Evaluation for instructors and candidates in methods courses.
 Instructors will teach about this summative assessment tool in methods class instruction;
 - Lesson Plan format/template;
 - Program admission, retention, and completion information;
 - Academic expectations for methods classes;
 - Department policies, procedures etc.;
 - Education Intervention Board processes.

Professional development for adjunct instructors was planned and led by faculty on July 30, 2019, and included all of items listed above.

EPP Action based on CAEP 4.3 and 4.4 Data (p. 3)

Assessment improvements in 2019-2020:

Responding to trend of InTASC 6 Assessment being low in student teaching summative evaluation, program completer, and employer data.

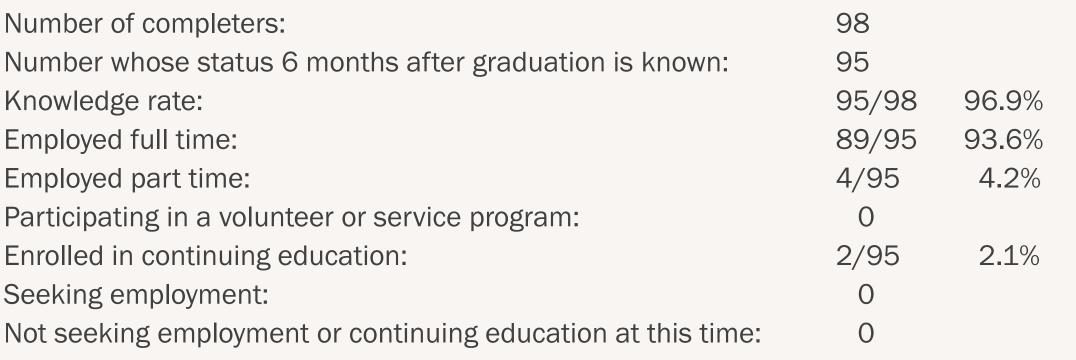

- New courses, EDUC 324E instruction and Assessment for Elementary and Middle Level and EDUC 324S Instruction and Assessment for Middle Level and Secondary began in 2018-2019. All candidates are required to successfully complete one of these courses. The focus of these courses is foundation and research-based best practices for using classroom assessment to demonstrate student learning and to improve classroom instruction.
- The final semester of piloting the edTPA was in Fall 2019. In Spring 2020, all student teachers were required to complete the edTPA during the first eight weeks of the student teaching semester. The edTPA is known to be a strong toll for candidates to demonstrate their use of classroom assessment to demonstrate student learning and to improve classroom instruction.
- EdTPA professional development from SCALE, was held on campus in May 2019. All EPP faculty fully participated.

Part 6 Initial Program Completer Employment Status (Title II) and 2018-19 Graduates Hired in Education Positions Aligned with Their Preparation (CAEP)

Initial Program Completer Employment Status (Title II) 2018-19 Graduates Hired in Education Positions Aligned With Their Preparation (CAEP)

Trend: Initial Completer full time or part time employment status is 97.8% employment in Education positions aligned with their preparation, for those reporting.

UNIVERSIT

Part 7 Student Loan Default Rates (CAEP)

All programs at Concordia University, Nebraska Undergraduate and Graduate: 2016: 5.1%

(Benchmarks: 2016 National rate = 10.1%; 2016 Nebraska rate = 7.3%)

2014-2015: 2.4%

2013-2014: 2.7%

2012-2013: 1.6%

Trend: Concordia University, Nebraska 2016 Student Loan Default Rate is below National and Nebraska rates.
